## THE WORLD OVER

### SOMEBODY BLUNDERED

#### SWEEPSTAKES TO RAISE MONEY

##### STATES COULD END WAR

King Solomon was supposed to be a wise man and to have proven his wisdom by telling the difference between a waxed flower and the real. He took the two flowers into the garden and left it to the bees to decide. However, now comes a report from Germany that tests have been made disclosing that even though a flower may be artificial it is attractive to the bees and butterflies. It has been stated that by these tests that it is found that it is the color, not the odor, that attracts. And we thought Solomon was a wise man!

With the running of the Grand National this past week over eleven million dollars were paid out in prize money and as a result the promoters of the stake, or the government of the country conducting the thing, took in over four million dollars profit. It was estimated that over six million tickets were received and at \$2.50 per ticket, a sum of approximately fifteen million dollars was taken out of the pockets of men and women in almost every country. This past week Hugh J. Montgomery, Liberal member in the Alberta Legislature for Wetaskiwin, advocated in the house that the Province of Alberta should conduct such a lottery to raise funds. Many in the country, however, are opposed to this stating that it is plain gambling and should not be tolerated. However, since tickets are being sold in this country for Irish and Newfoundland sweepstakes, we may as well legalize the "racket" and keep the money at home, instead of sending it out of the country. A person who wants to buy a ticket on these foreign sweepstakes is going to do so should he get the chance, and although he would not like to pay out this money in taxation, he does not seem to mind it when he buys a lottery ticket, even though he does not "draw a horse." If this is to be the case the Dominion or Provincial government may as well legalize this form of gambling and take the rake off, and let the money be devoted to the lowering of direct and indirect taxation.

Although hostilities still continue between China and Japan it is still within the power of the other nations to stop the fighting and demand a settlement, even though many complications may set in. In the past the Japanese foreign trade has been principally with China and the United States. Japan sent 36 per cent of her exportable goods to China and 40 per cent to the United States. Since the trouble between the two nations China has boycotted Japanese goods. Should the

## VICTOR HAWKINS NEW JUSTICE OF PEACE

William A. Braisher has resigned his office of Justice of the Peace in Carbon after acting in this capacity here for the past ten years, and although no official announcement has been made in the Alberta Gazette, it is said that Victor B. Hawkins has been appointed to this office. We understand that Mr. Hawkins was sworn in to the new position on Friday of last week so that in future he will act in formal capacity at police court cases in the Carbon district.

## PROSPECT FOR CROPS GOOD

### PLENTY OF MOISTURE IN LAND

Spring appears to be here—the snow has disappeared.

With the melting of the snow in the district, very little water has been running off the land and as a result most of the moisture is soaking into the soil. The first snow that melted a couple of weeks ago went into the land and with the double spring thaw farmers will be assured of plenty of moisture in the land to put in their crops this spring.

More moisture has fallen in the district this winter than for some time past, last year there being no moisture in the land at all when the crop was seeded, and as a result much of the seed was late in germinating, while in many cases high winds caused considerable soil drifting and blowing out of seed. Even with this handicap a fair crop matured in the Carbon district last season, and this year, with so much moisture in the land, a much brighter outlook for the grain farmer, as far as a crop is concerned, is in evidence.

United States boycott the 40 per cent of Japanese exports to her country Japan could not carry on long with only a market for 24 per cent of her exportable goods. Truly, there should be nothing to worry about the rumors that Japan may set out to conquer the world, starting probably on the United States. Nor should we have to worry about the League of Nations not being able to stop the conflict. It is within their powers to do so should they choose the boycott method, although as we saw, many complications may set in should this be done. Especially at this time when trade is hard to get and the United States does not want to give up the Japanese trade.

## ALBERTA NEWS

Although the Dominion Government will discontinue its air mail service in Western Canada at the end of the present month, the beacon at the Calgary airport will be retained for the use of fliers.

For this session at least, indemnities to members of the Legislature will be reduced by ten per cent or from \$2,000 to \$1,800, thereby contributing to the provincial revenue for unemployment relief a total of \$13,000.

A shortage of feed supply is found among many of the farmers of the Parkland district this spring, and car loads of feed are being shipped in.

It has been announced that the Calgary branch of the Canadian Bank of Commerce will be closed at the end of the month.

The annual meeting of the Nanton Golf Club was held last week and fees were set for men at \$7 and for ladies at \$3.

Like a ghost rising out of the ice of the Arctic ocean, the fur trading steamship Baychimo, missing for more than three months, has been sighted floating among ice fields about ten miles off Point Barrow.

Bringing total strikers in the Crow's Nest field over the 1000 mark, about 400 men in the employ of the International Coal and Coke Company mines at Coleman were out of work because of disputes.

Hugh J. Montgomery, Liberal member for Wetaskiwin in the Alberta Legislature, advocated sweepstakes under government supervision as a means of meeting emergency problems.

F. M. Johnston, manager of the Hudson's Bay Company store in Calgary for the past eight years, has resigned his position.

While returning home with a load of coal from the Indian mine southeast of Cluny, one of the Blackfoot Indian saw a silver fox by the road side. The Indian promptly gave chase and finally captured the animal under a granary. The Indian has now gone into the fox farming business.—Gleichen Call.

Blinded by a dense snowstorm last Wednesday, an Alberta Air mail pilot had a narrow escape when he landed his plane on a strip of stubble near Crossfield.

A far northern store has been opened on the shores of Great Bear Lake. Prices will run high in this part of the world, reports stating that a 100-lb. sack of flour will cost \$200.

## CARBON TENNIS CLUB DANCE

The first dance, under the auspices of the Carbon Tennis Club, was held in the Farmers Exchange hall, Carbon, on Friday evening, March 18th. A fair crowd of townspeople was present at this function, as well as a number of dancers from Swatwell and Acme, and a real enjoyable time was spent. The music for the evening was furnished by the Rockyford Albertans and at midnight a delightful lunch was served. We understand that the dance was not a financial success.

### VILLAGE OF CARBON

#### FIVE PER CENT DISCOUNT

NOTICE IS HEREBY GIVEN that all Village and School Arrears of Taxes paid or before the first day of June 1932, will be allowed five (5) per cent. on amount paid from the January 1932 Penalty.

ALEX REID,  
Secretary-Treasurer

## Guy Shell Passes; Funeral Held in Carbon Saturday

### Long Years Ago

(Gleaned from the Files of the Carbon News eleven years ago this month)

We welcome to our town Dr. Gentry who intends to practice here.

Mr. Ralph Purcell has sold his farm north of Carbon to Leonard Smith and Stephen Robinson.

We extend our hearty congratulations to Mr. and Mrs. Dick Heath on the birth of a son.

Still another: we also congratulate Mr. and Mrs. Tom Moss on the arrival of an infant daughter.

We understand that Mr. Dave Ireland has purchased a farm from Hubert Coates.

Miss Bessie Cunningham and Miss Belle Smith are visiting at their respective homes in Carbon. Both have been attending College in Calgary.

Mr. Jas. Ramsay and Dr. McFarlane were seen on the Kneec Hill Creek last Tuesday strenuously trying to capture some of the new specie of "Swivel Fish."

The Hon. C.H. (Toby) Webb announces his intention of organizing a Carbon Temperance League. A charge of \$5 will be made for membership. The proceeds will be spent for alcoholic beverages with which to experiment with and when a certain brand is found favorable, that brand will be recommended. Volunteer judges are wanted.

## LOCAL AGENCY APPOINTMENTS

A change in agents has been announced by two companies in Carbon the past week and in future W. Poxon of Carbon will be handling the International Harvester and the Imperial Oil agencies here.

After a lingering illness of over a year, and suffering from a sudden relapse a couple of weeks ago, W. Guy Shell, a well-known farmer in the Carbon district, passed away at his home near town about 7 o'clock on Friday morning, March 18th.

The late Mr. Shell was born in the States and came to this country as a young man and later settled in the Carbon district where he gained control of a large tract of land, it being estimated that at the time of his death he was farming approximately 10,000 acres of land in the Carbon district. Mr. Shell has gained many friends in Carbon and was 47 years of age. He leaves to mourn his loss his aged mother, two brothers and two sisters.

Funeral services for the late W.G. Shell were held from the Elks hall, Carbon, on Saturday morning, March 19th at 11 o'clock and a large number of friends and acquaintances gathered to pay their last respects to the deceased. Funeral services were in charge of Winter Brothers Funeral Home of Drumheller and were conducted by the Rev. Wm. McNiel of Carbon. During the service Mrs. S.F. Torrance sang and Mr. R.J. Fairbairn presided at the piano. Pallbearers were Messrs. S.N. Wright, H. Braden, Geo. Craddock, H. Evans, C.H. Nash and S.F. Torrance. Immediately following the services in Carbon the funeral cortege proceeded to Carstairs, about 45 miles distant, and interment was made in the Carstairs cemetery.

## ALBERTA MERCHANTS OWED FORTY MILLION DOLLARS

According to evidence given by A. C. Mackay, secretary of the Retail Merchants Association in Alberta, before the agricultural committee of the legislature last Tuesday, the 6,000 merchants in the province have approximately \$40,000,000 owing them. Mr. Mackay claimed that the merchants were entitled to more consideration in the administration of the Debt Adjustment Act.

### CARD OF THANKS

Mrs. Livingstone wishes to take this opportunity to thank all those who so kindly assisted her during the recent illness of Mr. W.G. Shell.

### We Are Learning Now

It is not in times of prosperity but in adversity that people learn their most valuable lessons. They may not be accumulating immediate and material profits, but they do unquestionably profit, reaping the benefits throughout the years to follow.

And what is true of individuals is equally true of nations and of the world. When things are moving along quite satisfactorily for the time being, normal or even abnormal developments taking place and progress recorded, when people are content and satisfied, individuals and nations learn very little of the real meaning and vital things of human existence. It is not in times of prosperity that great reforms are achieved and marked advances made in human and social relationships; rather it is when we consider "all is well" that we slip back and lose our grip on real fundamentals.

In the months and years immediately preceding the great stock market crash in the latter part of 1929, few people were worrying about anything, unless it was how to make still more money than was accumulating to their credit. They were not at all concerned about existing social conditions and giving no thought, or very little, to vital principles underlying all economic problems, including the possibility of future unemployment, mounting personal and national debts, heavier taxation, all combining to possibly result in loss of businesses and homes.

We find governmental bodies and special parliamentary committees grappling with the many and intricate problems involved in the relationships existing between debtors on the one hand and creditors on the other. They are discovering that, in the palmy days of abounding prosperity, when people took little thought of the future, when money and credit were easy, when production was booming, markets plentiful and prices high, a huge volume of debt, in large and small amounts, was contracted which it is now utterly impossible to pay, and which now rests like a wet blanket upon all business, industry and means of production. Efforts are being directed to finding a way out of the morass in which people and nations are sinking, and to provide checks to a recurrence of such a condition when once again the world becomes thoughtless through prosperity.

A Royal Commission is studying the transportation problem. A few years ago the railways of Canada were doing an enormous business, rapidly expanding their systems, the privately-owned road paying large dividends with their stock quoted at a premium, and the government-owned road steadily, even rapidly, through re-organization and efficient management, increasing its profits on operation to such an extent as to give promise that the day was at hand when it would no longer be a drag on the Federal Treasury. But now both systems are in deep financial trouble, and a solution of their difficulties is sought. In adversity they, and the country, are learning lessons they scorned to study when prosperous only a few short years ago.

Had a sound system of unemployment insurance been established during the years of our prosperity, thousands of people and the country itself would have been saved much of the grief of the past two years. But when times were prosperous, everybody employed at good wages, business boomance then could not have mustered a corporal's guard. It would have been ing, nobody was in a mood to even consider the possibility of future unemployment on a gigantic scale. Support for a scheme of unemployment insurance then could not have mustered a corporal's guard. It would have been laughed to scorn. But now, in adversity, we are learning the lesson that Joseph of old taught the ancient Egyptians,—in years of plenty prepare for years of famine.

For a goodly number of years past, the need for a thorough over-hauling of Canada's constitution, the B.N.A. Act, has been manifest. A splendid document in 1867, its designers could not foresee an age in which radio and the airplane would wipe out provincial boundaries in the twinkling of an eye, nor could they vision this electrical age, this mechanical age with its myriads of inventions and mass production on farms as well as in factories. A nation itself cannot control radio, let alone a province. The ether waves recognize no arbitrary boundary lines. If Canada and the United States each attempted a radio policy independent and regardless of the other, only chaos would result. Yet some provinces desire to control both the radio and airplanes within their smaller bounds.

Recently the Privy Council declared the Dominion Insurance Act unconstitutional, and that control of insurance rested with the provinces, under the terms of the B.N.A. Act. Yet insurance is not even national, but international in its organization. There is too much conflict between the provinces and the Federal authority. It is a constant succession of expensive law suits to determine which possesses authority. In our adversity we are learning that we cannot afford to have all this multiplicity and conflict in government and administration, and the time would appear to be ripe for the holding of a conference,—not of a few days, but a comprehensive one to go over the B.N.A. Act in its entirety with a view to more clearly defining the respective jurisdiction of the Dominion and the provinces. In view of the different conditions prevailing in 1932 as compared with 1867, coupled with the rising costs of provincial government, it would seem to be the part of wisdom for the provinces to relinquish certain matters in regard to which they possess a divided control with the Dominion, and entrust them solely to the Federal authority in the interests of a more unified and united Canada, and a lessening of the burden of taxation upon all.

### Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes: "I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

### Cheaps Means Of Travel

#### Bicycle Is Very Popular In England and Europe

The bicycle is returning to favor. Cycle manufacturers are finding the demand for bicycles higher than it has been for the last seven or eight years. Certain places have always been known as Bicycle Towns. Bedford is the most famous example in England, and has the highest proportion of bicycles to its population. This is probably due to the flatness of the surrounding country. Abroad, the bicycle is very popular. Copenhagen, for instance, moves almost entirely on the bicycle, so does the Hague. In Berlin the streets are crowded with bicycles at the hours when people are going or coming from work. Factories on the outskirts of the city have accommodation for thousands of bicycles, as most of the workers find this the cheapest way of travelling.

### FASHION HINT

"How to make my old short skirts conform to the new length was a problem to me until I hit on this plan. I dropped the hems; and as the part that had been turned under was darker than the rest, I redyed the entire dress, after having bleached the goods, following directions in the Diamond Dyes package."

"I used Diamond Dyes for the redyeing, of course. I have dyed many things with these wonderful colors. They have saved me many dollars and have never failed to give perfect results—smooth, even colors—fast to wear and washing. Friends think my things are new when I redye or tint them with Diamond Dyes. They do give the most gorgeous colors!"

Mrs. G.C., Lewis, Quebec.

### Gold Mine In Sweden

#### Third Largest In World Is Situated Under a Lake

The third largest gold mine in the world, situated beneath a lake in the north of Sweden, in a district producing annually more than eight million dollars worth of the precious metal, is described in an official statement by Count Albert Ehrensvar, the Swedish Minister in Paris. Count Ehrensvar predicts that Sweden may advance to the front rank of gold-producing countries. Since 1918 engineers and geologists have been working secretly in the primitive Skelleftea district on the Baltic Sea, the Minister declared, and have progressed to a point where more than forty shafts are being developed. The mines produce silver, zinc, and arsenic in sufficient quantities to pay entirely for the working of the Boliden under-water mine, discovered only in 1924, and now the third most important gold mine in the world.

**Relieves Asthma At Once.** If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

### Priceless Tapestry Damaged

A priceless tapestry depicting the childhood of Christ in the Church of the Nativity in Bethlehem, was slashed with a knife in the absence of the usual police guard. The Church of the Nativity, built over the manger in which Christ is supposed to have been born, is visited by many thousands of pilgrims every Christmas. The tapestry was presented to the church by France in 1874.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unsound stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear worms from the system.

The first stainless steel was the work of Michael Faraday, English physicist.

Nearly 90 firms are now engaged in the Scotch tweed industry of Scotland.

Quick action saves trouble, worry. Keep Douglas' Egyptian Liniment always handy. Stops bleeding instantly. Cauterizes wounds. Quickly relieves Barber's Itch and Ringworm.

W. N. U. 1934

### YESTERDAY—

## Cranky and Fretful TODAY— Happy and Contented

Mrs. M. Mason, Halifax, praises **BABY'S OWN TABLETS.**

"Baby's Own Tablets have indeed been a friend to me," writes Mrs. Mason. "When the children are over-tired and restless I give them their dose of Baby's Own Tablets at night, and in the morning I can see that a wonderful change has taken place—they are happy, contented and soothed children, and a pleasure to cope with."

Mrs. F. Kathleen Sager, 152 Dynevor

DR. WILLIAMS'

## BABY'S OWN TABLETS

Make and Keep Children Well—As Mothers Know

Road, Toronto, says: "I have found it wise to give Baby's Own Tablets whenever 'Sonny' has a slight cold or when ever he is inclined to be cross."

Give your child **BABY'S OWN TABLETS** for teething troubles, colds, simple fevers, colic, upset stomach, constipation, sleeplessness, and whenever he is cross, restless and fretful. Children take them eagerly—like candy. And they are absolutely SAFE—see the certificate in each 25-cent package. Over 1,250,000 packages sold in 1932.

221

### Another Patent For Late Thomas Edison

#### Given For Apparatus Which Electroplates Nickel On Diamonds

Edison is dead, but the United States Government is still awarding him patents for his inventions. The Patent Office has just issued a patent to Thomas A. Edison for an apparatus which electroplates nickel on diamonds to be used in cutting and grinding tools. The diamond is the hardest known substance and it is therefore very efficient in grinding metals such as steel. It is difficult to mount these diamonds in suitable tools. Edison's invention overcomes this difficulty by providing a machine which electroplates nickel on the diamonds, after which they can be held rigidly in grinding tools. Edison also proposed to mount diamonds in a similar manner for phonograph needles. The signature of Edison in his well-known, firm and bold handwriting appears on the drawing of the patent.

### In These Hard Times

Yes, these are hard times. We throw away ashes and buy soap; we raise dogs and buy hogs; we grow weeds and buy vegetables and brooms; we catch fish with a \$4 rod; we build schoolhouses and send our children to be educated away from home; and at last we send our boy with a \$40 gun and \$19 dog to hunt 10-cent rabbits.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Making artificial flowers has become a "cottage" industry in Czechoslovakia.

### Hunted Foxes Display Remarkable Ingenuity

#### Destroy Their Scent By Running Along Railway Lines

Hunted foxes and hares display considerable ingenuity and one, at least, of their tricks cannot be the result of ancient heredity; they will run along railway lines keeping on the metal rails. This appears to be a further application of the habit, common to hunted animals, of running in a stream to destroy their scent—the cold rail may have suggested cold water; actually it has much the same effect.

## Simple Remedy For Bad Stomach Gives Swift Relief

No Need Of Strong Medicines Or Diet. Safe and Simple Home Recipe Keeps Stomach In Fine Condition.

If you are a victim of Stomach Troubles—Gas, Sourness, Pain or Bloating—you may have quick and certain relief by following this simple advice.

Don't take strong medicines, artificial digestants or pull down your system with starvation diets. For within reason most folks may eat what they like if they will keep their stomach free from souring acids that hinder or paralyze the work of digestion.

And the best and easiest way to do this is to follow every meal with three or four tablets of Bismarck Magnesia—a pleasant, harmless, inexpensive, and handy tablet form of Magnesia that promptly neutralizes acidity and keeps your stomach sweet and clean.

A week's trial of Bismarck Magnesia tablets, which any good druggist can supply at trifling cost, should quickly convince you that 80 per cent. of ordinary stomach distress is absolutely unnecessary. Be sure to get Bismarck Magnesia Tablets!

Brazil's population has increased 27 per cent. in ten years.

It is thought that a full moon weakens radio signals.

# NEURALGIA

THE agonizing aches from neuralgia can be quieted in the same way you would end a headache. Take some Aspirin tablets. Take enough to bring complete relief. Aspirin can't hurt anybody.

Men and women bent with rheumatism will find the same wonderful comfort in these tablets. They aren't just for headaches or colds! Read the proven directions covering a dozen other uses; neuritis, sciatica, lumbago; muscular pains.

Cold, damp days which penetrate to the very bones have lost their terror for those who carry Aspirin tablets with them! All drug stores, in the familiar little box; Made in Canada

## Try COFFEE . . . this Way!

ST. C. 15

ONCE YOU start having Borden's St. Charles Milk in your coffee, you will never again be without it in the house. It blends in smoothly, turning the coffee to a rich golden brown, and has a rich texture that makes one come back for more.

By Annette

### A NEW SPORTS BLOUSE DISTINCTLY WAISTCOAT-LIKE IN ITS SMART CUT

Here's a happy little blouse whether you have a suit or not. For Paris is now favouring the separate skirt and blouse for general daytime wear.

And don't you think this one youthful and snappy?

It expresses daring chic in crepe silk in vivid green trimmed with brass buttons. Rose-red angora jersey is delightfully smart with matching bone buttons.

Knitted woollens, crepe satin, plain or printed flat crepe silk are lovely fabrics for this sports blouse that you can wear now and later for spring.

Style No. 948 is designed for sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 2 yards of 35-inch material.

For resort, it's stunning in light navy blue cotton corduroy with brass buttons and worn with a white skirt of the same fabric.

Price of Pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## Estevan Nurseries Make Gift Of Trees

100,000 Caragana Donated For Planting For Demonstration Purposes

Before the Orders of the Day were proceeded with last Tuesday, March 8, the Hon. J. F. Bryant, K.C., Chairman of the Drought Commission, read to the Saskatchewan House a letter just received from the Prairie Nurseries, Limited, in which they offered to the Government a free gift of 100,000 heavy three-year-old caragana shrubs to be used in connection with the demonstration plot of the Government. The letter is as follows:

March 4th, 1932.

Dear Mr. Bryant:—"Your address in Estevan last week, and the press reports of the work of the Saskatchewan Commission on Forestation, have impressed us with the far reaching possibilities for public good of the tree planting program you have inaugurated. As commercial nurserymen, we are not particularly enthusiastic over that part of your program that contemplates the establishment of another Government free tree planting agency. We heartily approve, however, of the educational and experimental features of your program. We fully realize the urgent need for general co-operation in combating drought and soil drifting and wish to aid in the establishment of the drought demonstration area contemplated by your Commission.

To this end, our Directors have decided to offer the Province of Saskatchewan one hundred thousand (100,000) heavy, three year-old Caragana, free of charge. We make this offer because we understand that your Budget does not permit the purchase of the required stock and we are certain that delay until Government stock is large enough to plant, will greatly lessen the effectiveness of your reforestation program. The time to start your demonstration program is before the public has forgotten the bitter lessons of last Summer's drought. This offer is made with the understanding that the Caragana is to be used only in the main demonstration area near Regina, and that the plantings be made the coming Spring. The demonstration plantings will provide valuable information for the farmers of Alberta and Manitoba, as well as those residing in Saskatchewan.

Wishing you every success in your efforts to secure the full co-operation of the public in combating drought, we are,

Yours very truly,

Prairie Nurseries, Limited,  
T. A. Torgeson,  
Managing Director.

Commenting on the above letter Mr. Bryant stated that he desired on behalf of the Government, and on behalf of the Drought Commission to publicly acknowledge the splendid gift of the Prairie Nurseries, Limited. The gift was extremely timely and was very generous. He hoped that it would be thrice blessed; that it would bless the farmers in the experimental area who would have the benefit of the experiment; that it would bless the other farmers of the Province who would share eventually in the benefit from the experiment, and that it would bless the Nurseries Limited, themselves, in the years that are to come.

Mr. Bryant stated that the Government had already acquired 50,000 caragana for the Institutional Farm surrounding the Gaol. The 100,000 caragana received from the Prairie Nurseries and the 50,000 which were available from the Forestry Station this year for the demonstration plot, would give 200,000 trees, and enable them to plant nearly forty miles of caragana hedge. This would be arranged in an area of one-half township starting at Winnipeg Street and No. 1 Highway, including an area one mile south of the main highway and two miles north of the main highway to a point six miles east of Winnipeg Street. This is in the heart of the heavily drifting area, and was chosen as a demonstration plot for the following reasons:

It surrounds the Gaol farm and the supply of seedlings in future would be readily available.

It is along No. 1 Highway and adjacent to the main line of the Canadian Pacific Railway and therefore is excellent for demonstration purposes.

It is in a convenient location so as to be under the direct supervision of the Superintendent of Institutional Farms, of Mr. Ross, of the Forestry Station, and of the representative of the Federal Experimental Farm.

It represents a class of land varying from heavy clay soil to light, sandy soil.

It will give an opportunity for testing the value of hedges for the protection of the highways as the hedges will run along both sides of the highway for a distance of six miles and four rods back from the road.

It will give an opportunity for testing the growing of grasses, as arrangements have been made for two thousand pounds of Brome Grass, two thousand pounds of Western Rye, and one thousand pounds of Alfalfa, with the Field Crops Branch and the Federal Department of Agriculture, and under this arrangement the farmers

## Head Colds Relieved with Vapors

Snuff Vicks up nose or melt in hot water and inhale vapors

VICKS VAPORUB

OVER 12 MILLION JARS USED YEARLY

will return the grass seed pound for pound that they receive. The amount of grass should enable the strip near the road to be planted to grass and should give ten acres of grass to each farmer on a one-half section basis; the grass sowing to be extended from year to year.

The cultural methods of various kinds recommended by the Committee will be observed and recorded by our Institutional Farms Staff. This will include the various methods of spring cultivation, strip farming methods, the different summerfallow practices, and the fall cultivation.

This is the first concrete area in the Province where an attempt has been made on a large area to prevent soil drifting on this basis. The programme will develop from year to year and we trust that the farmers from all parts of the Province who visit the Regina Fair and the World's Grain Exhibition will take the opportunity of visiting the demonstration area.

The work is being done by the Provincial Government with the hearty co-operation and assistance of the Federal Government Department of Agriculture, and Mr. Norman Ross, Chief of the Forestry Branch, and the head of one of the Experimental Farms will work in conjunction with the Superintendent of Saskatchewan Institutional Farms in connection with the matter.

The fact that we are able to start the fall of ETAINSHRDLUSHRRR the full experiment this year, stated Mr. Bryant, is due to the generous and magnificent gift of the Prairie Nurseries, Limited.

### Recipes For This Week

(By Betty Barclay)

#### BREAKFAST MUFFINS

2 cups special cake flour, sifted.  
4 teaspoons baking powder.  
½ teaspoon salt.  
1 egg, well beaten.  
¾ cup milk.  
4 tablespoons butter or other shortening, melted.

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg and milk and add to flour, beating until smooth. Add shortening. Bake in greased muffin pans in hot oven (400 degrees Fahrenheit) 25 minutes. Makes 10 muffins.

#### USE ORANGE AND LEMON PEEL

You throw away many a delicious morsel when you cast your orange and lemon rinds aside. Grated rinds are used by the best cooks to flavor cakes, pies, breads, desserts, frostings, fillings, sauces and other foods.

In grating, only the yellow portion of the rind should be removed. This portion contains the oils that give the flavor. Grated peels may be used fresh or mixed with sugar and kept in a tightly-covered jar. Where the whole peel is used it is ground fine, mixed with sugar, and used in the same manner as the grated rind.

#### The Canning Industry

In 1931 a total of 151 canning establishments in Canada canned or packed 5,960,388 cases of vegetables, of which 2,045,858 were tomatoes; 1,356,879 were corn; 1,118,790 peas and the remainder beans, asparagus, spinach, etc. The pack of fruits was 734,531 cases, the leaders being pears, peaches and raspberries.

#### Once Is Enough

A new flower, discovered in Central Africa, is to be called Nifidoliphantissianthemum. We hope not to have to refer to this again.

### Sluggish Liver And Rheumatism

Both Corrected By Famous Vegetable Pills

"I received immediate relief from Carter's Little Liver Pills," declares Mr. Arthur P. "I recommend them to sufferers from Rheumatism and Indigestion." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels. Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Bilianness, Headaches and Poor Complexion. 25c. & 75c. red pkgs. Sold everywhere.

## SUNDAY SCHOOL LESSON

MARCH 27

### JESUS RISES FROM THE DEAD—EASTER LESSON

Golden Text: "But now hath Christ been raised from the dead, the first-fruits of them that are asleep." 1 Corinthians 15:20.

Lesson: John 20:1-31.

Devotional Reading: Revelation 1:10-18.

#### Explanations and Comments

Mary Magdalene At the Empty Tomb, verses 1-3. On Sunday, the first day of the week, Mary Magdalene came early to the tomb where Jesus' body had been laid.

"She caught no scent of budding almond tree;

Her eyes, tear-blinded still from Calvary,

Saw neither lily nor anemone—Naught save the sepulchre."

And that sepulchre was empty! She hastened away to tell Peter and John that "They have taken away the Lord out of the tomb, and we know not where they have laid Him."

Peter and John At the Empty Tomb, verses 3-10. "There is an assured matter-of-factness about the account. Skeptics tell us that visions are common and that excited people are easily deceived. But we have no word of visions here. The writer does not say that he saw the Lord. He tells us merely of two fishermen running; of solid commonplace articles such as grave-clothes; and of observations that could not possibly be mistaken, such as that the tomb was empty and that they two were in it. For my part I feel constrained to believe a narrative like this when it tells me the grave was empty."—Marcus Dods.

Mary Magdalene and the Risen Lord, verses 11-18. "The two disciples went away, thinking nothing more could be learned at the tomb, but Mary tarried. "A stronger affection riveted to the spot a weaker nature," is Augustine's comment.

"When stooping she looked inside, there came

Angel voices from where her Lord had lain;

"Woman, why weepest thou?" Answering she had turned away,

Unseeing still, had heard him say, "Whom seekest thou?"

"Ages have passed since then, and still we stand without Each earthly tomb, with sorrow, fear and doubt;

Why was Mary's lesson given? Why walk with blinded eyes, still weeping,

At an empty tomb our vigil keeping? Our Lord is risen."

—Jean Cross Hansen.

"Woman, why weepest thou? Whom seekest thou?" were the first words of the Risen Lord. "We halt to take them in. It is so easy to imagine that the first utterance of the Conqueror of death would have been different—some command or rebuke to His apostles, some great declaration of victory. No; it is an inquiry concerning woman's sorrow and a woman's quest. It is as if our Lord was declaring that, His own pain and grief for ever past, He still cared more for the griefs and struggles of mankind than anything else."—R. C. Gillie.

"The question of Jesus to Mary implied that her weeping was due to her ignorance of a blessed fact that would have made it useless; and my weeping at the grave of lost joys, or lost hopes, or lost ambitions may often be the same ignorant and useless thing. God has always much better things in store for me than those which I have lost, and if I only knew all that He does of the case, I might find that I have been weeping over loss, where I ought rather to have been giving thanks."—G. H. Knight.

Jesus called her by name, and she knew Him and called Him Rabboni, Teacher.

"I was reading an old Jewish commentary on that word 'Rabboni.' The commentator says 'Rab' means Master, 'Rabbon' means My Master, 'Rabboni' means My Dear Master."—Charles Inglis.

"Touch Me not; for I am not yet ascended unto the Father," Jesus said to Mary, as she was about to clasp His feet in adoration. The Greek verb means primarily, as Dr. Martin R. Vincent points out, to 'fasten' to, hence it implies here not a momentary touch but a 'clinging' to. She must adjust her faith at once to new conditions, must learn to do without the physical appearance of her Lord, must learn to rejoice in a spiritual reality only.

#### Seek Origin Of Earthquakes

A new depth, 24,000 feet has been discovered in the Caribbean Sea, and scientists are hopeful that clues may be furnished there to the origin of earthquakes. Four thousand fathoms deep, however, is enough to daunt anyone but a movie diver, so the scientists may have to resort to instruments. —Montreal Gazette.

#### Experiments are being made in Ireland of the possibility of making silk stockings from seaweed.

## COMFORT for COLICKY BABIES

... THROUGH CASTORIA'S GENTLE REGULATION

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

J. H. Fletcher

**CASTORIA**  
CHILDREN CRY FOR IT

## WORLD HAPPENINGS BRIEFLY TOLD

Maurice Dupre, solicitor-general of Canada, has been elected vice-president of the naval commission of the disarmament conference.

Canada's export of poultry has more than doubled in the last twelve months ended January, according to the Dominion Bureau of Statistics.

A Dominion Bureau of Statistics report shows that the Indian population of Saskatchewan increased during the last ten years to 11,939, a gain of 1,905.

Fire losses in Canada for February were estimated by the Monetary Times at \$3,981,950 as compared with \$3,417,750 for January and with \$4,689,325 for February of last year.

Neville Chamberlain, Chancellor of the Exchequer, hopes to attend the Imperial Economic Conference at Ottawa as a member of the British delegation.

It has been estimated that approximately \$40,000 will be required to finance the dispatch of Canada's team to the tenth Olympiad at Los Angeles this summer.

Commercial failures in Canada during January numbered 238, according to the Dominion Bureau of Statistics. Liabilities were placed at \$4,060,600. In the corresponding month last year, failures were 240 and liabilities \$3,970,600.

Part one of the report of Sir Alexander Gibb, eminent London, England, port engineer on his survey of Canadian ports is in the hands of the government, and the final part of it is on its way from London to Ottawa.

Sir Philip Sassoon, under-secretary for air, announced in the British House of Commons that the Schneider trophy air races were completely over. "The contest has outlived its usefulness," he said.

#### Wanted a Road

A deputation of ratepayers had called upon the local council to protest against the condition of a certain road. After all had been heard, the Chairman of the Board, in a polite manner, said: "From all reports, I'd say the road was fairly good, taken as a whole."

"True," said the spokesman for the complainants, "but we want to use it as a road, not as a whole."

Try Lydia E. Pinkham's Vegetable Compound

## "Please Let Me Alone"

Out of sorts... disagreeable! Lydia E. Pinkham's Vegetable Compound has helped so many women whose nerves are frayed by those dreadful "monthly" headaches.

# Federal Government Considers Question Of A Railway Outlet For The Peace River District

Construction of the Peace River district railway outlet was a matter for consideration by the Federal Government, R. J. Manion, Minister of Railways, told the House of Commons. Although much thought had been given to the question, the administration was not prepared to announce its decision at the present time.

"I believe firmly a Peace River outlet will have to be built," said the railway minister. "It is only a matter of time, a question as to when it will be built."

Neither the Canadian National nor the Canadian Pacific Railway considered the Peace River outlet an economic feasibility at the present time, said Dr. Manion. They would not undertake its construction. This threw the question back to the Federal Government.

Charles Stewart, former Minister of the Interior, considered the Peace River outlet so important he advised the government to delay for a short time the St. Lawrence River development and give precedence to the far-western railway.

The Peace River outlet has become a perennial question in the House. It is proposed to link up the "agricultural empire" of the Peace River with the Pacific Coast. Its only connection with the south at the present time is through Edmonton, Alberta. The estimated cost of the western link has been placed between \$13,000,000 and \$80,000,000, depending upon the number and extent of branch lines and the route.

During the past year a committee of engineers studied the problem at the request of Dr. Manion. Their report was unfavorable to the immediate construction of the line, but they favored the Obed route. The minister of railways said both Sir Henry Thornton, president of the Canadian National, and Edward Beatty, President of the Canadian Pacific, concurred in this report, although Mr. Beatty did not support the Obed route.

Mr. Kennedy said the question of the outlet had been studied without consideration being given to all the facts. The population of the Peace River country had grown from 20,000 to 40,000 people within the last five years, and there had been a drift of new settlers into this district from the dried-out areas. Construction of the outlet would provide assistance to people in this district in the development of their farms and was a better step than the giving of relief.

The yield per acre in the Peace River district was from four to six bushels higher than the yield in the prairie provinces, and the land available in the Peace River section was of the best quality, Mr. Kennedy declared. He took issue with statements of engineers in regard to the paying possibilities in carrying products from Peace River to British Columbia.

Mr. Manion asserted that, if his memory served him correctly, the president of one of the railways, either Sir Henry Thornton or Mr. Beatty, had declared it would require 10 times the present crop in the Peace River district to justify building the outlet.

The rates from Grand Prairie, in the Peace River, to Fort William and also to Vancouver were quoted by Dr. Manion. He did not regard them as unreasonable in view of the distance involved.

"Is there any greater misfortune than to be married to you?"  
"Yes—to have been in love with you!"—Die Musketiere, Vienna.

W. N. U. 1934

## Lipton's Fortune

### Efforts To Win Yacht Cup Removed Him From Millionaire Class

Sir Thomas Lipton's efforts to win back the America's cup for Britain removed him from the millionaire class just before he died, so his friends say.

It was believed at the time of his death in October, that his will would show a fortune running into millions, but the total estate was worth only £566,000.

"The America's cup races cost Sir Thomas very much more than was generally realized," said one of his most intimate associates. "Besides, he disposed of several large sums of money in the years before his death."

Lipton's affection for his friends in the United States remained to the end, for he bequeathed the gold loving cup, which was bought by popular subscription and presented to him on his last visit to New York, to the New York Yacht Club.

The greater part of the Lipton fortune went to hospitals and charities, although many substantial gifts were made to friends and old servants in both Britain and America.

### A DARLING WEE MODEL THAT IS EASY TO WEAR, TO MAKE AND LAUNDER

Happy! Well I guess in such a comfy dress for playtime.

The dropped banded shoulders form the brief sleeves.

It's so simple, it could almost be run up on the sewing machine and finished before breakfast. Just a few seams to join and finish the neck and arms with the applied band trim.

Red and white plaided cotton broadcloth with plain white is fetching, as pictured.

Light navy blue pique with tiny white dots and plain white trim is typically French.

Dimities, batiste prints and dotted swiss are dainty as can be and sturdy too.

Style No. 984 is designed in sizes 2, 4 and 6 years.

Size 4 requires 1½ yards 32 or 39-inch with ¾ yard 35-inch contrasting.

Price of Pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## Indian Population

Increased figures shown for Saskatchewan and B.C.

The Indian population of both British Columbia and Saskatchewan increased during the last 10 years, figures issued by the Dominion Bureau of Statistics, indicate. Indians on British Columbia reserves in 1931 totalled 23,297, an increase of 2,955 in the decade; on Saskatchewan reserves, 11,939, a 10-year gain of 1,905.

British Columbia has a population of 694,263, an increase of 170,281 in the past decade, final figures for the coast province census of 1931 show.

The population of federal electoral districts is: Cariboo, 52,700, increase, 12,868; Comox-Alberni, 25,669, increase, 3,991; Fraser Valley, 68,507, increase, 9,686; Kootenay East, 22,566, increase, 3,429; Nanaimo, 55,524, increase, 7,514; New Westminster, 69,294, increase, 23,312; Skeena, 30,358, increase, 1,424; Vancouver-Burrard, 82,519, increase, 26,221; Vancouver Centre, 75,234, increase, 14,355; Vancouver North, 32,972, increase, 8,757; Vancouver South, 89,556, increase, 43,419; Victoria, 39,082, increase, 355; Yale, 40,637, increase, 4,939; Kootenay West, 39,943, increase, 9,441.

## Official Smoke Inspectors

### Men In London Keep Tab On Prohibited Kind

Probably the queerest job in London is that of two men whose job is to look out for smoke. The London Council has strict regulations against the emission of smoke from factory chimneys. On the roof of the Underground power station at Lot's Road, Chelsea, is a little hut inhabited by the smoke spotter on duty. He looks anxiously at the great chimneys, and then produces a glass screen. This is colored with four different shades. He looks through his screen and compares its color with that of the shades on the glass. Should the smoke be of the same hue as the darkest of these, the smoke-spotter presses a button. Instantly bells ring, hooters blow, and colored danger signals appear in various offices. One furnace is emitting smoke of a prohibited kind, and the boiler-room hums with activity until the smoke-spotter from his lofty perch gives what is quite literally the "all-clear."

## Printers Are Responsible

### Expression "Out Of Sorts" Is Used By Compositors

For the expression "Out of Sorts" printers are responsible. The different kinds and sizes of type used by a compositor are called "sorts." Sometimes his supply of some kinds may become exhausted, when any work in hand may have to be suspended until his "font" is replenished from the typefounder's or the machines. While waiting for supplies, he is, of course, being unable to work properly, "out of sorts."

In the past two decades the use of alloy steels has grown ten-fold.

# Gold Producing Provinces Of Western Canada Adding Materially To Nation's Wealth

According to preliminary estimates of gold production for 1931, the Yukon Territory and the gold producing provinces of Western Canada accounted for some 291,000 ounces, or nearly 14 per cent. of the total production of the country. Manitoba's output advanced from 23,189 ounces in 1930, to 100,510 ounces in 1931. The output from British Columbia decreased from 164,331 ounces to 153,934 ounces, and that of the Yukon was slightly in excess of the previous year.

The increased output from Manitoba is largely accounted for by the continuous operation throughout the year of the Hudson Bay Mining and Smelting Company's smelter at Flin Flon, according to Mr. A. H. A. Robinson of the Dominion Department of Mines, Ottawa. The smelter treats the copper-zinc-gold-silver ores from the company's Flin Flon ore body and from the Sherritt Gordon Company's mine at Sherridon. The Central Manitoba mine, operating a straight gold property in the south-eastern portion of the province, produced gold to the value of \$30,000 to \$40,000 monthly during the year. The Gem Lake Mine in the same section contributed a few thousand dollars to the output. A 50-ton mill is now in course of construction at this property, and will replace a small pilot mill which was not equipped to recover that part of the gold contained in the sulphides. At the San Antonio property, near Central Manitoba, a cyanide mill having an initial daily capacity of 150 tons is expected to be in operation during the present month.

The decline in British Columbia's output is attributable to curtailment of production from copper mines, from which, normally, about 19 per cent. of the gold output is obtained, to a smaller output from the Premier Mine, long the chief gold producer, and to the closing in 1930 of the Nickel Plate Mine. These decreases, however, were partly compensated for by largely increased production from the Pioneer, the Reno and the Union Mines and by a larger output of placer gold.

The Union property in the Grand Forks district was once a silver mine, but recent developments have changed it into a gold mine of considerable promise. The Reno Mine, on Sheep Creek, in the Nelson district, is a small property and operation may continue for some time. The Pioneer is also an old mine which has been rejuvenated, and which gives every promise of maintaining an important production for many years. A new mill with a daily capacity of 300 tons is being erected to replace the 100-ton mill now on the property, and a shaft is being sunk to a depth of 3,000 feet. The vein has been proved for a length of 1,860 feet on the eighth level, with an average width of 3½ feet. The ore on this level averages \$20 to the ton. Dividends at the rate of 12 per cent.

per annum are being paid on the company's capitalization of \$2,500,000.

In a recent paper on "Lode Gold Mining in British Columbia," Mr. J. D. Galloway, the Provincial Mineralogist, estimates the reasonably indicated gold reserves in the known mines of the province, and in possible extension of known ore-bodies, to be \$30,000,000. This is exclusive of placers and probably as large a reserve as the province has had at any one time in its history; yet, since 1893, lode gold to the value of \$140,868,011 has been produced. Reserves indicated at present, in conjunction with the probabilities and possibilities of semi-developed mines, prospects and unprospected areas portend a bright outlook for gold mining in the province.

In the Yukon the placers in the immediate vicinity of Livingstone were being prospected vigorously during the summer of 1931. This area had been practically abandoned for a number of years. Considerable activity was also in evidence in the vicinity of Carmacks, where a lode gold discovery was made during the summer of 1930. The scene of the discovery was later visited by a number of geologists, but no reliable information is available as to its nature or extent.

## Peace Garden

### Proposed To Plant Decorative Strip Three Thousand Miles Long

Recently a number of Canadian business men in England have been sounded as to the likelihood of their giving financial and other support to a picturesque scheme for establishing a strip of decorative landscape garden the whole of the way along the Canada-United States border. This border is already famous for the absence of a single fortification.

The idea appears to be that a fund of five million dollars be raised by public subscription in the United States and Canada, the bulk of which might come from those who might benefit by the tourist trade likely to be increased greatly by such an attractive lure, and the garden—3,000 miles long might be maintained by the interest on such a fund.

At various points along the border botanical museums and hothouses might be established where delicate trees and plants could be reared. Such a project, too, would provide work and incidentally settle the problem for many parents of what to do with their sons because of the limited number of good gardeners in North America.

Such a garden would bring much publicity to both Canada and United States and because of its unique position, forming the boundary between two countries and because of its great magnitude, stretching 3,000 miles and dividing a continent, it should merit a place as perhaps the eighth wonder of the world.—Regina Leader.

## Canadian Banks

There are 10 chartered banks in Canada with over 4,000 branches of which 179 are in other countries, mainly in Newfoundland, the West Indies, Central and South America and also in the great centres of international finance, London, Paris and New York. The assets of Canadian banks are placed at \$3,045,000,000.

Latvia has been cutting down its unfavorable trade balance every month for almost a year.

"I am sorry to tell you that your husband will never work again."  
"I will go and tell him. He will be so pleased!"—Pele Mele, Paris.

## "Old Granite" Softens Up

Throwing off the cares of state and the worries attendant upon the presidential election, President Paul von Hindenburg, of Germany, is shown as he took a stroll in the Wilhelmstrasse at Berlin with three of his grandchildren. President von Hindenburg is still regarded as the most popular man in Germany.

## THE HOUSE OF DREAMS-COME-TRUE

— BY —  
MARGARET PEDLER

Author of  
"The Splendid Folly," "The Hermit  
Of Far End,"  
Hodder & Stoughton, Ltd., London.

### CHAPTER XV.—Continued.

And now, without warning or preparation, she found herself face to face with the fact that Blaise had been married—that he had belonged to another woman! It seemed to set her suddenly very far apart from him, and a fierce, intolerable jealousy of that other woman leaped to life in her heart, racking her with an anguish that was almost physical. She was confused, bewildered, by the storm of emotion which suddenly swept her whole being.

"Married her?" she repeated with dry lips.

"Yes. Didn't you know that Blaise was a widower?"

Had Lady Anne divined the stress under which the girl was labouring that she so quickly interposed the knowledge that his wife was dead?

"No," answered Jean unsteadily. "I didn't even know that he had been married."

The fact of that other woman's being dead did not serve to allay the tumult within her. She had lived, and while she lived she had been "his wife!"

"Yes, he married her," Lady Anne went on, speaking in level tones. "I think matters were hurried to a climax by the fact that Nesta's step sister, Margherita Valdi, detested English people. She was much the elder of the two, and as their mother had died when Nesta was born, she had practically brought the girl up. She would never have countenanced the idea of her marrying an Englishman, but Nesta so contrived her meetings with Blaise that Margherita was unaware of his very existence, and eventually they married without her

knowledge. From that day onward, Margherita declined to hold any communication with her sister."

"Why had she such a rooted antipathy to the English?" Jean had recovered her composure during the course of Lady Anne's narrative, and now put her question with a very good semblance of detachment. But, inside, her brain was dully hammering out the words "Married—married!"

"It seems that Margherita's step father—Nesta's father, of course,—who was an Englishman, treated his wife extremely badly, and Margherita, who had adored her mother, never forgave him and hated all Englishmen in consequence. At least, that was what Nesta told Blaise, and it seems quite probable. Italians are a hot-blooded race, you know, and very vindictive and revengeful. Of course, these Valdis were of no particular family—that was where the trouble began. Nesta was just a rather second-rate, though extraordinarily beautiful girl, suddenly elevated to a position which she was not in the least fitted to fill. It didn't take a month for the glamour to wear off—and for Blaise to see her as I saw her. He came to his senses to find himself married to a bit of soulless, passionate flesh and blood. Oh, Jean! If I could only have been there—in Italy, to have saved him from it all!"

Jean hardly heeded that instinctive mother-cry. She was keyed up to know the end of the story. She felt as though she must scream if Lady Anne were long about the telling.

"Go on," she said, forcing herself to speak quietly, "Tell me the rest."

"The rest had the Tormarin temper for its cornerstone. Nesta was an utterly spoiled child, and a coquette to her finger-tips. She tossed dignity to the winds, and there were everlasting scenes and quarrels. Then, one day, Blaise came in and found her entertaining a man whom he had forbidden the house. I don't know what he said to her—but I can guess, poor child! He horsewhipped the man, and he must have frightened Nesta half out of her mind. That evening she ran away from Staple—Nick and I, of course, were living at the Dower House then—and after months of fruitless enquiry I had a letter from Margherita Valdi telling me that she had been found drowned. She had evidently made her way back to Italy, hoping to reach her sister, and then, in a fit of despair, committed suicide."

"Oh, poor Blaise! How awful for him!" exclaimed Jean, horror-stricken. For the moment her own individual point of view was swept away in a flood of sympathy for Tormarin.

"Yes. It broke him up badly. Always, I think he is brooding over the past. It colours his entire outlook on things. You see, he blamed himself—his ungovernable temper—for the whole tragedy. . . . If only he had been gentler with her, not terrified her into running away! . . . After all, she was a mere child—barely seventeen. But she was a heartless, conscienceless minx, nevertheless. . . . And Margherita Valdi did not let him down lightly. She wrote him a terrible letter, accusing him of her sister's death. I opened it—he was abroad at the time—but, of course, he had to see it ultimately. Tied up in a little separate packet was Nesta's wedding-ring, together with a newspaper report of the affair, and, to add a last stab of horror, she had folded the newspaper clipping and thrust it through the wedding-ring, labelling the packet 'Cause and effect.' It was a brutal thing to do."

They were both silent for a space, Jean painfully envisaging the tragedy that lay behind that stern habitual gravity of Tormarin's, Lady Anne asking herself tremulously if she had been wise—if she had been wise in her disclosure? She wanted her son's happiness so immeasurably! She believed she knew where it might lie, and she had raked over the burning embers of the past that she might help to give it him.

She knew that he himself was very unlikely to confide in Jean the story of his unhappy marriage, or that if he ever did so, it would be but to shoulder all the blame himself, exonerating Nesta entirely. Nor, unless Jean understood the fiery furnace through which he had passed—that ordeal of impetuous, mistaken love, of disillusion, and, finally, of the most bitter self-reproach—could she possibly interpret aright Blaise's strange, churlish moods, his insistent efforts to stand always on one side, as though he were entitled to make no further claim on life, and, above all, the bit-

## How Modern Women Lose Pounds of Fat

At The Same Time Gain in Physical Vigor and Youthfulness and Possess a Clear Skin and Eyes that Sparkle with Glorious Health.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

While taking Kruschen cut out pastry and fatty meats, and go light on potatoes, butter, cream and sugar.

At the same time the stomach, liver, kidneys and bowels are tuned up and the pure, fresh blood containing Nature's six health-promoting salts are carried to every organ, gland, nerve and fibre of the body. This is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

### FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c package.

This consists of our regular 75c bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c. Immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

ter quality which permeated his whole outlook.

All these things had been in Lady Anne's mind when she had decided to enlighten Jean. She had seen, just as Judith had seen, whether Blaise was tending, fight against it as he might, and she was determined to remove from his path whatever stumbling-block and hindrance she could. And, in this instance, she felt instinctively that Jean's own attitude might constitute the greatest danger. Any woman, as sincere and sensitive as she, might easily be driven in upon herself, shrinkingly misunderstanding Blaise's deliberate aloofness, and thus unconsciously assist in strengthening that barrier against love which he was striving to hold in place between them—and which Lady Anne so yearned to see thrown open.

It was to this end that she had reopened the shadowed pages of the past—so that no foolish obstacle, born of sheer misunderstanding, might imperil her son's hope of happiness if the time should ever come—as she prayed it would come—when he would free himself from the shackles of a tragic memory and turn his face towards the light of a new dawn.

### CHAPTER XVI.

#### The Gift Of Love

There are some people to whom love comes in a single blinding flash; it is as though the heavens were opened and the vision and the glory theirs in a sudden, transcendent revelation. To others it comes gradually, their hearts opening diffidently to its warmth and light as a closed bud unfolds its petals, almost imperceptibly, to the sun.

With Jean, its coming partook in a measure of both of these. Love itself did not come to her suddenly. It had been secretly growing and deepening within her for months. But the recognition of it came upon her with an overwhelming suddenness.

Lady Anne, in recalling that bleak tragedy of the past, had accomplished

Thousands of MOTHERS ARE GRATEFUL  
". . . I wish I had known about this when I raised my first baby," so many mothers tell us. Fretful, crying babies make mothers grow old. Our new Baby Welfare book tells how to keep your baby laughing and well—a joy rather than a care. Write today and it will be mailed to you free.

**Eagle Brand MILK**

more than she knew. She had shown Jean her own heart.

From those fierce, unexpected pangs of jealousy which had stabbed her as she realized the part played by another woman in Blaise's life—the woman who had been his wife—had sprung the knowledge that she loved him. Only love could explain the instant, clamorous rebellion of her whole being against that other woman's claim. And now, looking back upon the months which she had spent at Staple, she comprehended that the veiled figure of Love, face shrouded, had walked beside her all the way. That was why these even, uneventful weeks at Staple had seemed so wonderful!

(To Be Continued.)

### Cunard Steamship Sailings

#### St. Lawrence Season To Open Much Earlier This Season

What will be the earliest departure date from British ports to Montreal for many years, has just been announced by the Cunard Line, who have scheduled their liner "Ascania" to open their St. Lawrence season two or three weeks earlier this year on account of the unusual weather conditions. "We expect this will prove a very popular move," said Arthur Randles, general passenger manager of the Cunard Anchor-Donaldson Lines in Canada, in an interview with the Press.

A special spring sailing will be made by the Anchor-Donaldson liner "Lettitia." On her first trip here this season, she will be used as a Scottish Trade Mission Exhibition ship, bringing over a hundred Scottish manufacturers with exhibits of their products. During the week the ship is in port here she will be used as an exhibition ship and thrown open to the general public and buyers. The Hon. H. H. Stevens, Minister of Trade and Commerce, Ottawa, is to speak at the opening dinner on May 16th, on board the ship, when he will welcome the Scottish visitors and their friends.

Another event of importance for the forthcoming Cunard season is afforded by the advent of several of the largest Cunarders in the St. Lawrence on short cruises from New York. These will include no less a liner than the "Mauretania," which is scheduled to make three trips to the St. Lawrence, visiting the Saguenay. She will also call at Quebec. It is expected that the use of this famous liner on this route will bring thousands of American tourists to St. Lawrence and Eastern Canada hitherto unacquainted with Canada's attractions as a tourist country.

The Cunard and Anchor-Donaldson Lines have set aside several of their summer sailings at the height of the season for their new "Restricted Third Class." On these sailings the usual third class accommodation will be reserved entirely for "White Collar," passengers, i.e.—students, business men, teachers, etc. On these particular sailings the third class accommodation will be considerably improved and will approximate in character the original tourist third cabin, although the ordinary third class rates will apply.

**Excellent For Croupy Children.**—When a child is suffering from croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

#### In Reverse Gear

Two showmen were talking together, not having met for some years.

"How is that Italian acrobat getting on, Signor Marconi, that used to be with the circus?" asked the first.

"Oh, well," said the other, "his great ambition was to walk a tight-rope on his head, get rich, and retire!"

"Ah!" said the first. "He did it, and now he's resting on his laurels?"

"No," was the reply. "He tried it—and now laurels are resting on him!"

Persian Balm creates lovely complexion. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Alluringly fragrant. Delightful to use. Swiftly absorbed by the tissues, imparting that elusive charm so distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discriminating woman should use this silvery lotion. It is unrivalled as a flawless aid to beauty.

## Utterly Worn-Out

Mrs. Fitzpatrick Tells How Dr. Williams' Pink Pills Made Her Well.

Can Now Run Upstairs.

"I became run-down and unable to do my work for a family of seven," writes Mrs. W. P. Fitzpatrick, Marquis, Sask. "I was told I had anaemia, and I took treatment, but with very little improvement. Finally my sister, who had had the same disease, advised me to try Dr. Williams' Pink Pills, as they had done her so much good. I have taken seven boxes. Today I'm well; able to do my own work; no more tired feeling or weak spells. I can run upstairs without puffing. I sleep and eat well. My friends are astonished at my changed appearance and never fail to ask what I'm taking. My reply is: 'Dr. Williams' Pink Pills.'"

Dr. Williams' Pink Pills actually create an abundance of new red blood, which is the reason why they have given new vitality and strength to thousands of such nervously exhausted and overtired women. Equally helpful for growing girls. Try them. At your druggist's in the new glass container. 50c a package. 272

### Little Helps For This Week

"If ye seek Him, He will be found of you." 2 Chronicles xv. 2.

Onward we sweep through smooth and storm.

We are voyagers all in shine or gloom.

And the dreamer who skulks by his chimney warm

Drifts in his sleep to doom,—to doom.

—John Sterling.

The great thing in this world is not so much where we stand as in what direction we are moving. To reach the port of heaven, we must sail sometimes with the wind and sometimes against it, but we must sail, and not drift nor lie at anchor.

—Oliver Wendell Holmes.

No wind serves him who addresses his voyage to no certain port.

—Montaigne.

The old proverb might be revised to read that those who live by the sword shall perish by the taxes.

## DECLARE THEY HATE SIGHT OF DUST CLOTHS

Canadian women vote dust cloths a nuisance to use and to wash

MUCH PREFER APPLEFORD WONDER PAPER

With so much inventive thought being given to eliminating unnecessary housework, it is only natural that a worthwhile substitute for the dusty dust cloth should be sought.

Now it has been found! Appleford Wonder Paper which actually dusts—as it cleans—as it polishes is receiving a hearty welcome from Canadian women who detest dust cloths and all they stand for.

Wonder Paper is made from clean rags and soft paper pulp, thoroughly impregnated with a high-grade furniture polish, and absorbs dirt instead of spreading it. Appleford Wonder Paper comes in handy-size package, twenty-five sheets, each as large as a duster. You merely crumple a sheet into a soft wand, and go over the surfaces requiring attention.

You'll be amazed at the quick and lasting finish Wonder Paper gives. When one side is worn and soiled, simply turn the Wonder Paper inside out. After the furniture or woodwork has been gone over, you can still use your Wonder Paper on the floors.

And when you're through—throw it away. No duster to shake out or wash. No bother at all. The most obnoxious part of housework done in half the time and with half the effort. Doesn't the idea appeal to you?

#### Special Offer

Wonder Paper is made by the makers of the famous PARA-SANI heavy waxed paper in the Green Box. Most grocery, hardware and department stores sell Appleford Wonder Paper. If yours doesn't, just send the coupon and we'll give you a new and unique booklet entitled "Leftovers," containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full-size package of WONDER PAPER and your 100 recipes for "Leftovers."
